

## IT MATTERS HOW YOU LOOK.

The Carousel Studio is a place for professionals who want to **look, sound, and feel** sharp as a tack for their meeting, call, or interview.

### *It's time to get serious about your remote meetings and content production.*

Careers are increasingly built on who can be the most captivating and concise on video calls, remote interviews, produced videos, and live events. Unfortunately, when it really counts, most professionals and companies are struggling to deliver the goods from home.

## WHY?

- ▶ The average home or office Zoom setup is poorly lit, poorly designed, underequipped, and an acoustic car wreck.
- ▶ Our homes and offices were never designed to be studios.
- ▶ Production quality matters if you want to make an impression.
- ▶ In client and media facing businesses, allocating a marginal budget to ensure you can hold the attention of prospects, clients, and customers is a no-brainer.
- ▶ Studio-quality sound is shown to make the speaker seem more authoritative.
- ▶ High-quality video coupled with proper lighting holds viewers attention long to prevent "second screening" where attendees drift onto other devices as they lose interest.
- ▶ On-screen graphics and quick transitions to presentations demonstrates competency, avoids awkward moments, and tedious video editing.
- ▶ We're never going back to the old ways of doing things. The Carousel Studio is a place to succeed at business in the virtual world.
